**HOAGLAND'S NEW PATENT SHAFT COUPLING!**
**W. E. COOPER**
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
**CARD.**
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO JULY 28.

### Washington News

CHICAGO, July 28.—A Republican special says several colored rioters who interfered to prevent conservative negroes from voting at the recent city election in Washington have been sentenced to twenty years imprisonment.

It is reported that Gen. Canby will be transferred to the command of Mississippi to supervise the election in that State. In that case, McDowell will be ordered to command in Virginia.

A *Tribune's* special says Surgeon Charles L. Green, Naval Surgeon, recently of the *Nipsic* is on trial by Court Martial on a charge preferred by Commander Selfridge, for disobedience of orders in refusing to discharge a seaman from the sick list. The important point involved is whether a commander can give such an order to a surgeon; also whether the Captain or the Surgeon is the proper person to say when a man is fit for duty.

The editor of the Washington *Star* writes from Salt Lake of the highly favorable condition of the Union Pacific. He says the company are laboring energetically to make it one of the strongest and smoothest roads in the country.

The Commissioner of the General Land Office has reports showing the disposal of 47,212 acres of public land during the month of June, including Oregon City, Oregon, 913 acres; Olympia, Washington Territory, 9,570 acres.

Information has been received at the Indian bureau from the Yankton agency, that the Indians are highly pleased with the manner in which the Great Father proposed to take care of them. They express their intention to give up and treat. There is prospects of a fine crop on the reservation.

### New York News.

CHICAGO, July 28.—A special from New York says most of the distilleries of New York have stopped operation. A prominent revenue officer says he believes the orders for stoppage came from Washington with the approval of Commissioner Delano, through a desire to favor Western distilleries. Another official says the leading distilleries in the West have agreed to pay a dollar for every barrel they make to officers engaged in suppressing manufacture in the East.

The notorious Charles Quincy was arrested yesterday for passing forged railway certificates to Wm. Hatch & Co. Quincy is Cashier for Hatch & Co., and they were mainly instrumental in causing his arrest. He is a real forger and is of the highest respectability.

One of the officers of a Brooklyn bank and son of one of the Directors decamped three weeks ago with $40,000 in currency and bonds. He was arrested at Brooklyn last evening and returned the bonds and checks to the amount of $35,000.

The board of health of this city report cases of small pox very unfrequent. All fears of the epidemic have disappeared.

The German tailor's union have agreed to strike for an increase of thirty and thirty-five per cent. on their wages.

At a camp meeting on Narragansett Bay Sunday night, ten tents were entered and the occupants chloroformed and robbed of a large amount of valuables.

### Disastrous Railroad Accident.

LOUISVILLE, July 28.—A passenger train on the Memphis and Louisville railroad, from New Orleans, ran through a trestle eight miles below Clarksville. The entire train, except the New Orleans sleeping car, was burned. The engineer and fireman and one passenger were killed and eleven badly wounded. Seventeen were slightly injured. Judge Caulkins, wife and two children were all wounded, the latter slightly.

### St. Louis Dispatch.

ST. LOUIS, July 28.—The reported burning of the steamer *Peter Balen*, on the upper Missouri, is not credited among steamboat men. Chas. H. Merry, who built the first boat for bulk grain on the upper Mississippi, and who inaugurated through shipments in bulk of grain via New Orleans, proposes to build a propeller for conveying grain in bulk from St. Louis to New York, if the merchants will donate $25,000 if the vessel succeeds. If not successful, he does not ask anything.

### Canada Affairs.

MONTREAL, July 28.—A conference has been in process to settle the basis of arbitration between the Dominion and the Government of the Provinces of Ontario and Quebec. Donald, Carter, and other members of the Cabinet, are present. The proceedings are said to be satisfactory. Some minor points remain to be adjusted.

A large number of emigrants by the steamer *Cleopatra*, from London, on Government emigration tickets, passed yesterday.

The grand LaCrosse tournament will be held in September, in honor of the visit of Prince Arthur. All Canada is invited to compete.

### The French Cable.

KINGSTON, Mass., July 28.—In a speech yesterday at a banquet in honor of laying the French cable, Sir James Anderson said he had been told that certain opposition had been made to the landing of the cable. It might be due to the same kind of enterprises, perhaps to Field, his colleague, but he did not care for that. He was sure the American people would not be unjust. They would not allow any company to spend a million of money to unite two great continents together without giving them a fair show. At least he believed that it would be weak and foolish on the part of the company to ask for undue sympathy and partiality. If they could not work as well as a rival company or faster, they had no right to public support and should not get it. Whatever public sympathy might be, the cable was therefore laid as a purely commercial enterprise. Every right-thinking person trusted it would promote peace. God forbid that it might ever be used as a weapon of war.

NEW YORK, July 28.—The following is furnished by the Franklin line of telegraph:

PARIS, July 28, 8:35 A. M.—To the Honorable Secretary of State, Washington.—The Emperor of the French to the President of the United States, Washington: I am highly gratified to inaugurate a new line of telegraph, which unites France with the United States, by sending to you the expression of my good wishes for you and for the prosperity of the United States.

(Signed) NAPOLEON.

The President answered as follows:

WASHINGTON, July 28.—The President of the United States to the Emperor of the French: I cordially reciprocate your good wishes, and trust that the liberal policy of the United States pursuant to which this cable has been landed may result in many such means of communication especially between this country and its earliest ally and friend. (Signed) U. S. GRANT.

### The Northern Pacific Railroad Party.

MINNEAPOLIS, July 28.—Letters received last night from the Northern Pacific Railroad exploring party, dated Georgetown, Red River of the North, and Fort Abercrombie, July 20th, says the party is in fine spirits, and about to separate, one party pushing to the Missouri river, the other portion returning to St. Paul prior to the trip to Lake Superior.

### New England News.

MONTPELIER, July 28.—In Vermont the Council of Censors, a body of men appointed to enquire if any amendments are required to the constitution, state that Reed has submitted a long report in favor of female suffrage from the committee on that subject.

BOSTON, July 28.—The Board of Directors of the French cable have sent Sir James Anderson, commander of the expedition, a dispatch returning thanks to the inhabitants of Duxbury and other people of the United States for their friendly reception of the cable.

### Miscellaneous.

PHILADELPHIA, July 28.—The State Grand Lodge of Knights of Pythias met yesterday. The proceedings were private. The order number 32,800 in Pennsylvania.

PORTLAND, Me., July 28.—The Match factory of Benj. Bunker, at Kendall's mills, was totally destroyed by fire yesterday.

RICHMOND, July 28.—The *Dispatch* states that the motions against the banks of Howardsville, Scottsville, Monticello, Phillipi, Pittsylvania, and the Central, of Virginia, for injunctions and the appointment of Receivers, have been set for argument in Chambers before Judge Underwood, at Alexandria, next Friday and Saturday. The suits are brought by Harvey Terry against these banks. Over $70,000 is involved.

## BY ATLANTIC CABLE.

LONDON, July 27.—Henry W. Longfellow was yesterday invested with the honory degree of of Doctor of Laws by the Oxford University at a special convention.

LONDON, July 28.—The Harvard crew, with Kelly as coxswain, yesterday rowed against ebb tide and a stiff wind. In spite of these circumstances, the opinion formed of the Americans is favorable. They timed four or five strokes per minute more than the Englishmen usually do.

Gladstone is reported better to-day.

The coal miners held a conference at Manchester for an increase of wages at the end of the month.

The Harvard crew were out again this morning on the Thames. They will take a second trip this evening.

The *News* says that at the time when questions between the old and new countries are suspended rather than settled, it is pleasant to note how mutal affinities make themselves continually felt in many ways, whether in brotherly contest on sea or river, or in the acknowledgment of reciprocal intellectual obligations, or in the exchange of university honors. They remind us that blood is thicker than water if not more binding than ink.

MADRID, July 28.—Many arrests continue for disloyalty. At Ciudad Real hundreds of people are asking pardons of the Government for complicity in the recent Carlist movement. They say they had been deceived by the Carlist leaders. There was a street fight yesterday at Lamancha, between the Carlists and the Government troops. The Carlists were defeated and fled to the mountains. The insurgents at Cicentan released the prisoners from jail.

PARIS, July 28.—It is reported that Don Carlos has ordered the cessation of the movement in his behalf. His partisans are much discouraged.

VIENNA, July 27.—Baron Von Beust to-day received a Budget by commission in the Hungarian Parliament. The address says the relations between Austria and France are on the best possible footing ever since Austria relinquished her Italian territory, and the intentions of the two countries are identical. Alluding to the Eastern policy, he said the Government would not insist on the programme of 1867, but leave it to the option of Turkey to follow its counsel regarding the concessions to the Christians. On this point they would bring no pressure to bear. The Emperor declared he had honestly striven to establish more cordial relations with Prussia, but his efforts not having been met in a similar spirit, he had been unsuccessful. The address closed with a strong defense of the general policy of the Imperial Government.

NEW YORK, July 28.—A *Herald* special from London to-day, says the Harvard crew rowed twice on the river Thames. Their American boat created a favorable impression. Their style of rowing is good, although the pace is considered rather slow. The Oxford crew called upon the Harvard's during the day and fixed the race for August 23d, or on one of the following days. The members of the Harvard crew will practice daily until the race comes off.

### A Useful Circular.

The following Circular, a large number of copies of which have been printed for distribution among passengers coming west on the Pacific railroad, is admirably adapted to calling attention to Oregon. We learn that this circular will be placed in the hands of persons who will see that it is regularly distributed in the cars and at the stations, so that it may be sure to come to the notice of travellers. Those who wish to obtain copies for use here or transmission abroad can be supplied by addressing Ladd & Tilton at this city:

CIRCULAR.

The design of this circular is especially to call attention of the Tourist, the Emigrant and traveling public, who are now visiting the "Far West," to that portion of the Pacific coast and the great North West known on the maps as Oregon. While California and the city of San Francisco have, as it were, become "household words" all over the land, but little has been said or known of Oregon, outside of our own limits; and while, by the completion of the great Pacific railroad, this section of country has been brought into closer connection with the great cities of the Atlantic sea-board, and as thousands upon thousands will visit these shores, it is to be hoped that the information herein imparted may be the means of inducing some few to visit the State of Oregon—with its magnificent rivers—its grand snow-clad mountains—its noble forests—its beautiful cascades—its rich and fertile valleys—a State whose boundless, undeveloped resources, to-day, offers greater inducements for all classes of people desirous of making for themselves permanent homes, than any State in the Union.

RESOURCES.

Oregon contains 95,274 square miles—is more than four times as large as Massachusetts, and greater in extent than the united areas of Maryland, New Jersey, Massachusetts and Rhode Island! The present population is not far from one hundred thousand, comprised of people from all sections of the country, and from the nature of our pursuits we probably have less floating population than any of the Pacific States, and it is a subject of remark by travelers from the Eastern States that Oregon is much farther advanced than many of the older Western States. The failure of crops is a thing unknown in the history of Oregon, while our flour and wheat have a reputation all over the world. Our salmon fisheries are unsurpassed, and the time is not far distant when the Columbia river salmon will be shipped to all parts of the civilized globe, to say nothing of immense forests of timber bordering our rivers and bays, accessible for shipping, a feature, looking to the future of this coast, well worth considering, when it is known that the entire coast, from Cape Mendocino south for thousands of miles, is utterly destitute of timber. As a manufacturing State, Oregon should, with the introduction of skilled labor, rank among the first. The raw material is here in abundance, and our wool and hides constitute important articles of export. Already we have six woolen mills in successful operation, one paper mill, with flouring mills scattered all over the State, and for abundance of water power the "Willamette Falls," at Oregon City, cannot be excelled.

Portland, the metropolis of Oregon, is situated on the west bank of the Willamette river, 12 miles from its mouth, and contains a population of about 10,000. As a commercial point, it is far ahead of most cities containing an equal number of inhabitants. It has a line of sailing vessels direct to New York, another with the Sandwich Islands, and every year vessels direct from China, bringing hundreds of Chinamen and assorted cargoes of merchandise; still another line is about being established direct to Liverpool, with occasionally a cargo of wheat and flour shipped to Australia. Several lines of sailing vessels are constantly plying between here and San Francisco, with ocean steamers leaving once a week. With Victoria, V. I., we have ocean steamer communication, and overland stages connecting us with Puget Sound. Steamboats of the "Oregon Steam Navigation Company," furnish the means of transportation between Portland and Astoria, Portland and Monticello, and up the Columbia to Umatilla and Wallula, and during the summer months to Lewiston, on Snake river. This Company have two lines of railroad connecting their line of steamboats, one at the Cascades of six miles, another at the Dalles of the Columbia of 15 miles, both first-class roads in every respect.

The Willamette river is navigated by the "People's Transportation Company" from Portland to the head of navigation. Two lines of railroad are being built from Portland through the Willamette valley—one on the east and the other on the west side of the river.

CLIMATE.

Our climate is unsurpassed, and, unlike California, we have our spring, summer, autumn and winter, although our proximity to the Pacific ocean renders our winters less rigorous than the corresponding parallel on the Atlantic sea-board, and oftimes we have no snow at all, as in the winter of 1868-69. During the year ending August 31, 1867, we had 230 dry days, 83 showery days and three snowy days. The thermometer rarely goes lower than 15° or 20° above zero, or higher than 85° or 90°, and even with extreme hot weather the nights are comparatively cool and refreshing. Stock of all kinds thrive well, and rarely require to be fed during the winter.

TOURISTS.

To the tourist leaving the Pacific Railroad at "Indian Creek" station, 38 miles west of Promontory, the first object of interest is "City of Rocks," 40 miles distant; then 60 miles further on and seven miles off the stage road, he beholds the "Shoshone Falls," the great Niagara of the "Far West," back again to the stage road, and 20 miles of travel brings him to the "Unknown River" at Clark's Ferry, breaking out of the bluff rocks, 500 or 600 feet high and emptying into Snake river; from which point, traveling a distance of 125 miles, you reach Boise City, thence on through Boise, Payette, and other valleys, to the crossing of Snake river at Old's Ferry or Farewell Bend, through Powder river and Grand Ronde valleys to the Blue Mountains.—Here is a grand and magnificent scenery on every hand, and a good stage road takes you through the mountains. Once over the Blue Mountains, you pass through the Umatilla Indian Reservation and on to the town of Umatilla, on the great Columbia river, where practically, your journey is at an end, for you now step on board the elegant steamboats of the Oregon Steam Navigation Company, and the two [illegible] days of the trip to Portland, will leave an impression on your mind never to be [illegible]. You have 85 miles of navigation on the upper Columbia river with its rapid whirls, with the face of the country gradually changing from comparatively flat along the banks of the river, until you reach "John Day's Rapids," when it becomes more rolling, and where old Mount Hood with its hoary locks, rearing its head to the clouds, breaks upon your astonished view, the river and rapids forming the foreground, with high bluffs and rolling hills on either side, the whole forming a picture which no artist can reproduce on canvass. From the rapids at John Day's, a short run brings you to Celilo, the upper terminus of the Oregon Steam Navigation Company's railroad; thence a distance of 15 miles to the Dalles. Leaving Celilo, a ride of five minutes brings you to what the Indians designate as "Tumwater," the [illegible] salmon fishery of the Columbia, and winding along the river with its rushing, foaming torrent, you come to the "Grand Dalles of the Columbia," where the entire body of water of this mighty river is confined within rocky walls nearly a hundred feet high, and the passage so narrow that a stone can be thrown across. Farther on we have Cape Horn of the Upper Columbia, with its perpendicular basaltic walls, hundreds of feet high, almost overhanging the railroad, and still farther on we reach Five Mile Hill, the point at which Bierstadt took his celebrated picture of Mount Hood, then a short ride brings you to the Dalles, the terminus of the railroad, where you again embark on a steamboat for the [illegible] a distance of fifty miles. Here a portage of five miles is made around the rapids over a first-class railroad, thence by steamboat, a distance of sixty-five miles to Portland. The scenery from the Dalles to Portland is beyond description, as it is constantly changing, and reminds one of a moving panorama, which must be seen to be appreciated. The principle objects of attraction, however, are the "Cascade Mountains" on either side, which you pass through for a distance of twenty miles; the rapids at the Cascades, where the Columbia breaks through the mountains, then Castle Rock, Cape Horn, The Waterfalls, Rooster Rock, &c., &c., enough in all, to more than absorb the closest attention. Once at Portland, a trip of two days takes you to Puget Sound, or three days via steamer to San Francisco; or five days through the Willamette, Umpqua and Rogue River valleys, overland to San Francisco. And in this [illegible] it will be well to [illegible] that the valley is justly called the "garden spot" of the North-West, offering superior inducements for investment and settlement. This valley is 150 miles north and south and on an average, of 30 miles east and west, comprising the richest farming and agricultural land in the State, owned, mostly in large tracts of from 160 to 640 acres. Cultivated farms, well fenced, with comfortable houses and commodious barns, conveniently located as to towns, schools and churches, can be purchased at from $8 to $12 per acre.

HOW TO REACH OREGON, AND WHAT IT COSTS.

Passing over the Union Pacific Railroad to Ogden, thence via Promontory, 38 miles farther west, to Indian Creek Station, where you leave the railroad and take John Hailey's Pioneer Stage Line for Umatilla, on the Columbia river, thence by steamboats and railroad of the Oregon Steam Navigation Company, to Portland, being 520 miles of staging—time four days—and 215 miles via steamboat and railroad—time two days including several hours and a night's rest at the Dalles—at a cost of $92 00 in gold for the entire trip. And in conclusion, if the brief statement of facts herein set forth should be the means of inducing people to visit Oregon and the great North West, its object will have been accomplished.

PORTLAND, Oregon, July 26th, 1869.

**WHITE'S NEW MAP OF WASHINGTON TERRITORY!**
WEST OF THE CASCADES.

OLYMPIA, W. T., May 24, 1869.

THE UNDERSIGNED WOULD RESPECTFULLY solicit subscriptions to enable them to publish a MAP OF WASHINGTON TERRITORY West of the Cascades, compiled from the United States Surveys and the best and latest authorities. The scale is four miles to an inch, making the map sixty seven by fifty-one inches. In addition to the topography of the country, the map shows the extent of the Surveys, the Indian and Government Reserves, the Prairie lands, the soundings of the principal harbors, and many other particulars, not given in previous maps. THE SUBSCRIPTION PRICE IS TEN DOLLARS; RETAIL PRICE, TWELVE DOLLARS. The map will be furnished, colored, mounted and complete, by August. It was forwarded in March to the establishment of Colton & Co., New York, for publication.

Subscriptions may be forwarded to Joseph Cushman, Receiver Land Office, Olympia; W. C. Painter, Walla Walla; A. G. Cook, Vancouver; S. J. McCormick, Portland, who will receipt.

We call attention to the following endorsements.

HAZARD STEVENS,
CHAS A WHITE.

ENDORSEMENTS.

OLYMPIA, W. T., March 27, 1869.

C. A. WHITE, Esq.—*Dear Sir:* Having examined your original map, embracing that portion of Washington Territory west of the Cascade Range, I [illegible] to add my testimony to its value. Having been engaged for a number of years in the surveys from Cape Flattery to the Head of Puget Sound, I have examined this portion of your map more critically than others, and I take pleasure in vouching for its general correctness.

This map will fill a want that has long been felt, not only among the residents of this Territory, but others, who are desirous of obtaining information of this portion of the "Far West," and I trust that we shall soon see it in a form suitable for general distribution.

JAS. S. LAWSON,
Asst. U. S. C. S.

We endorse the annexed opinion of Jas. S. Lawson, Esq., and will add that Mr. Chas. A. White is a practical Surveyor, and has had access to the township maps in the two Land Offices in this Territory, as also the Coast Survey charts; and we can vouch for his map of Washington Territory, west of the Cascade Range of Mountains, as being correct, and the only good map of the same territory that has been made.

## Canadian Delegates on the San Juan Question

The following is a copy of the letter addressed to Earl Granville by the Canadian Delegates, upon the subject of the San Juan dispute.

WESTMINISTER PALACE HOTEL,
LONDON, 29th Dec., 1868.

MY LORD—In connection with the conversation we had the honor of having with your lordship, a few days since, on the subject of the island of San Juan, we now beg, in accordance with the suggestion of your lordship, to submit our observations on that subject, in the form of a written communication, and in our character of representatives of the Canadian government. Your lordship is aware that the 146th section of the British North America act of 1867, makes provisions for the admission into the dominion of Canada, of Newfoundland, Prince Edward's Island, and British Columbia, and also of Rupert's Land and the Northwest Territory. We are happy to inform your lordship that a large majority of the people of British Columbia appear to be anxious for an immediate union with Canada. With the assent of the imperial government that union may soon be accomplished; and therefore the dominion of Canada has presently and prospectively a deep interest in the settlement of the boundary question involving the title to the island of San Juan, in the Gulf of Georgia. We notice that the President of the United States, in his last message, announces that the title to that island is one of the three questions now pending for settlement between Her Majesty's government and the government of the United States. We avail ourselves of the present opportunity to represent to your lordship that in our humble opinion it is of the most vital importance to British Columbia, and prospectively to all British North America, that an island which commands by sea the principal cities, ports and harbors of Her Majesty's possessions on the Pacific coast should not be surrendered to a foreign power. We think it is clear that the treaty of 1846, which establishes the boundary throughout the channel which separates the continent from Vancouver Island, intended by the words, the channel nearest the continent, the only one then generally known and used by navigators. It is the first channel and therefore pre-eminently the one which separates the continent from Vancouver Island. The American government by contending for the third channel, or that which is furthest from the continent, the very existence of which appears to have been unknown to the British Commissioners, prove to the world that their object is not to obtain possession of a few rocky islands in the gulf, of no commercial or agricultural value, but of the important military position of San Juan, which would lock up the Straits of Fuca and overlook British Columbia as effectually as Fort Montgomery, which was surrendered to the United States by the treaty of 1842, now looks up Lake Champlain, and threatens, by its proximity and its magnitude the chief city of the new dominion. Our experience of past diplomacy in the settlement of boundaries in North America in which the disposition of the one side to encroach, and on the other to intrude, was always p[illegible] and always resulted disastrously to Canada, [illegible] teaches us that a similar disposition and similar results may be feared in the future. A territorial compromise in British Columbia may be deemed by some of little moment in the settlement of the other questions now pending between the two governments, but we respectfully submit that every resource of diplomacy and every argument derived from the practice and policy of coterminous nations, from the geographical position and marine requirements of the respective countries in the gulf, as well as the language of the treaty, should be exhausted before a strategetic position is given up, which future generations of loyal subjects may have occasion to regret as bitterly and as unavailing as the people of New Brunswick, Quebec, and all of Canada now regret the unfortunate concessions of the Ashburton treaty. We crave your lordship's pardon, if we have pressed our views too strongly on what may be thought rather an Imperial than a Canadian question. We do not [illegible] that the importance of the issue is already [illegible] your lordship [illegible] help feeling when [illegible] at the map of [illegible] and observe that [illegible] frontier the State of Maine by a [illegible] thrust like a wedge between [illegible] of Quebec and New Brunswick [illegible] and covering [illegible] acres [illegible] regarded [illegible] and [illegible] by thousands of B[illegible] and that on the west, through ignorance of [illegible] of the country in 1778, and under a [illegible] in 1818, a vast [illegible] and the boundary carried so far north that communication between Canada and the [illegible] valleys and plains on the northwestern territory is through a region of a level plain—we say we cannot help feeling, when we recall these unhappy and, as we now find, costly blunders of the past, that we are only discharging a solemn duty when we add our earnest warning to the arguments your lordship, as Secretary of State for the colony, will use to prevent a similar and, in some respects, worse blunder in reference to our position on the Pacific coast.

We have the honor to be
Your Lordship's ob't serv'ts,
(Signed) GEO. E. CARTIER,
WM. McDOUGALL.

### An [illegible] Letter of Washington.

At a meeting of the New England Numismatic and Archæological Society, in Boston, July 7th, a very interesting autograph letter of Washington, of the following is a literal copy, was presented:

NEWBURGH 5th June 1782.

MY DEAR SIR—Colo Hazen's sending an officer under the capitulation of York Town for the purpose of retaliation has distressed me exceedingly.—Will you be so good as to give me your opinion of the propriety of doing this upon Captain Asgill should we be driven to it for want of an unconditional prisoner.

Presuming that this matter has been a subject of much conversation, pray, with your own, let me know the opinions of the most sensible of those with whom you have conversed.

Congress, by their resolve, have unanimously approved of my determination to retaliate—the army have advised it, and the country looked for it. But how far it is justifiable upon an officer under the faith of a capitulation, if none other can be had, is the question? [illegible] Captain Asgill on for this purpose makes the matter more distresing, as the whole business will have the appearance of a farce if some person is not sacrificed to the manes of poor Hudle; which will be the case if and unconditional prisoner cannot be found, and Asgill escapes,—

I write to you in exceeding great haste, but beg your sentiments may be transmitted as soon as possible (by express) as I may be forced to a decision in the course of a few days.

I am—with much sincerity
and affect
D' Sir
Yr Obedt Servt
G° WASHINGTON.

### The Goose Race.

From the Omaha *Republican* we clip the following account of a novelty:

Over 2,000 people gathered on the banks above the pond, and along the lower end of Farnham street, on yesterday afternoon to witness Bob Hart and Sully in their great wash-tub-goose feat.

Promptly at the advertised time Hart made his appearance, followed by his competitor for the golden peanut offered by Colonel Hanford.

Each sat in an ordinary washtub, to which was attached six pair of geese, driven and guided with an ordinary carriage whip. The most deafening applause, shouts and yells greeted the contestants as they were towed into the pond. Striking the Farnham street bank, both started side by side, talking and urging on the feathered racers the same as a jockey would do in a trial of speed amongst fast horses.

Half way across the pond Sully's team switched off and bolted for the weeds, giving Bob the lead by 3 1-2 lengths.

Recovering his course Sully made splendid headway, gaining rapidly on the Hart outfit. One of his geese, however, attempting to dive, kicked a rear goose in the eye. The kicked bird at once cackled his defiance and soon demoralized the entire team, to such an extent that victory was impossible.

Hart would have come in "O. K.," only for his "wheel geese" baulking badly and upsetting the tub. Sully began laughing at his opponent's disaster, when his team made a sudden right flank movement, which left the driver floundering in the mud.

The assembled multitude yelled the louder at the accidents. Righting their crafts both parties made for the shore leading their teams.

Bob took the prize.

### Death of the "Round Table."

(From the Chicago Tribune, July 12.)

The death of the *Round Table* furnishes a new illustration of the risks of newspaper enterprise, and the difficulty of founding a new paper, perhaps of the special difficulty of founding a literary paper whose political views shall correspond to those of the unlettered classes. The various attempts to maintain a first-class Democratic daily in New York have resulted in the establishment of only two—the New York *World* and *Journal of Commerce*. Though the vote of the city is two-thirds Democratic, its daily press representing its reading classes is two-thirds Republican and Independent. The *Round Table* aimed, in defiance of many failures, to establish a literary paper for the special edification of Democratic readers, and its losses and failure indicate the smallness of the number of such readers who want a literary paper. In five years it sank $40,000, being at the rate of about $150 loss on each number published, though the total expenses of the paper averaged only about $600 per week. For every dollar paid by the public toward its support the proprietors contributed twenty-five cents to keep it afloat. Is it not singular that while all other non-paying means of promoting any phase of opinion find abundance of philanthropists ready with open purses to endow them, the newspaper or literary paper, though the most potent of all, has never been treated as an institution in which the public had an interest? A society for furnishing the Otaheitians with bed-quilts or the canibals with gridirons would be richly endowed; but to no Democratic testator did it ever occur to donate $50,000 to aid in supplying the Democracy with a first-class literary paper.

### The New Money.

The Government paper mill in Pennsylvania has, through the Government agent at the mill, transmitted the first lot of new improved paper to the American and the National Bank Note Companies in New York city. There this paper will receive a portion of the impressions in the process of transfer into greenbacks or legal tenders and fractional currency. It appears that Secretary Boutwell has given to the companies named an order to print a portion of the new money. They do the work jointly by arrangement between themselves. Their part of the work is as follows: The backs of the legal tenders, from $1 to $1,000 notes inclusive, and the faces and backs of fractional currency, of a portion of the plates that relate to that part of the work the companies perform, has been engraved by these engravers from designs from the Bureau of Engraving and Printing in the Treasury Department. The faces of legal tenders, and tint and seals, are all to be printed in the Printing Bureau. Also, the tints and seals of fractional currency. As soon as the bank note companies execute their portion of the work, the paper is to be sent to the Treasury, the money completed and handed over by Mr. McCartee, Superintendent of the Bureau, to Treasurer Spinner. The first issue of the money will be ready for the public about the 25th of this month, when all the present legal tenders and fractional currency are to be called in. All the designs were gotten up in the Engraving and Printing Bureau, under the supervision of Mr McCartee, the Superintendent. The paper of the new money will be water marked with a large "U. S." It is what is known as the French silk paper, and through its fibres will run a seam of silk, red and blue colors.

## INSURE IN THE
## NEW ENGLAND MUTUAL
## LIFE INSURANCE COMPANY!

## WHY?

BECAUSE you get your first DIVIDEND to HELP PAY YOUR SECOND PREMIUM. You do not have to wait 3 or 4 years for the distributions.

BECAUSE we have NO STOCKHOLDERS to draw from 12 to 25 per cent on imaginary CAPITAL STOCK (personal promises to pay) amounting from $30,000 to $50,000 annually.

Because the NEW ENGLAND is a Mutual and is a Home Company in all our broad and beautiful country, an American Institution—the first one formed on the PURELY MUTUAL plan on this Continent.

BESIDES it is the only Company offering you the protection of the Massachusetts law.

For example. A person aged 35 insures for $1,000, pays $26 50, say on the 1st July, 1869. Were he to die on the 4th July, 1871, 2 years and 3 days after, his policy would be paid. Thus

| | |
|---|---|
| Say amount Policy is | $1,000 00 |
| Deduct two annual payments he has not paid, $26 50 each, and interest | 54 62 |
| The family would receive | 945 38 |

*No Snap Judgment here. This is what we call* EQUITABLE and MUTUAL

Five annual payments keep the Policy in force 10 years and 56 days.

**Policies on which Note has been given for one-third of the Premiums.**

Five payments will continue in force nearly five years after payments have ceased.

On ENDOWMENT POLICY the time is prolonged in proportion to the amount paid.

Take the statements of no solicitor for other Companies of our beneficent workings, but call and satisfy yourselves. We will be pleased at all time to communicate every information.

## THE
## New England Mutual

**Is the only Company on this Coast that offers the above advantages to Policy-Holders.**

The above examples are facts that are incontrovertible, and will be proven to the satisfaction of all persons calling on our agents.

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn [illegible] cases of CHRONIC INFLAMMATIONS OR GRANULATED LIDS, FILMS, &c, as has been sufficiently demonstrated during the few months it which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness.

## TO THE UNFORTUNATE.

**NEW REMEDIES, NEW REMEDIES**

## Dr. Gibbon's Dispensary,

**623** KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc, Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

**Horrible Diseases.**

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

**Seminal Weakness.**

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, [illegible] the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief is not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

**MARRIED MEN,**

Or those who contemplate marriage, who are laboring under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

**CURED AT HOME.**

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

**Caution to the Unfortunate.**

Beware of the San Francisco quacks and [illegible] who, with bogus sworn-to certificates, dupe the [illegible]. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and [illegible] lazy to work at their trades. Some are thereby shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended [illegible] letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat disease that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on C[illegible]) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE Letter.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian.*

## THE APPETITE FOR TOBACCO DESTROYED!

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO.

## ORTON'S PREPARATION!

**ESTABLISHED 1866.**

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco, in any person, no matter how strong the habit may be. *If it fails in any case the money will be refunded. It is perfectly safe and harmless to all cases.* It is almost impossible to break off the use of Tobacco by the mere exercise of the will. Something is needed to assist nature in overcoming a habit so firmly rooted. With the help of the Preparation, there is not the least trouble. *Hundreds* have used it who are willing to bear witness to the fact, that Orton's Preparation completely destroys the appetite for Tobacco, and leaves the person as free from any desire for it, as before he commenced its use. The Preparation acts directly upon the same glands and secretions affected by Tobacco, and through these upon the blood, thoroughly cleaning the poison of Tobacco from the system and thus allaying the unnatural cravings for Tobacco. *No more hankering for Tobacco after using Orton's Preparation. Recollect it is warranted.*

The time taken to allay all desire for Tobacco by the use of the Preparation varies *slightly* in different persons, the average time being about *Five* days. Some have no desire for Tobacco whatever after using the Preparation *Two* days.

The *Health* and *Purse* of every Tobacco user in the country calls loudly, ABANDON THE USE OF TOBACCO.

**RECOMMENDATIONS.**

The following are a few selected from the multitude of recommendations in our possession.

We, the undersigned, hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from this habit that Orton's Preparation will entirely destroy the appetite for Tobacco *quickly* and *permanently*, and without any bad effect upon the health, and without creating an appetite *either for the Preparation* or *any substitute*.

W. P. Heald, Bangor, Maine; J. Moody, Southport Indiana; E. W. Adkins, Knoxville, Tenn.; John Merrill, Bangor, Maine; J. Bunch, Springfield, Tenn.; W. D. Harrington, West Point, Georgia.

*From Samuel Cassidly, Editor Journal & Argus:*

PETALUMA, CALIFORNIA, Dec. 14, 1868

For about twenty years I had used Tobacco in its various forms, and for the past eight years had been an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously impairing my health, I determined if possible to check myself of the habit. Hearing of Orton's Preparation for destroying the appetite for Tobacco, I sent to Portland, Me., for a box of the medicine, which I received through the mail on the 17th of November. A month has not elapsed and yet the medicine has effectually relieved me from any yearning or desire to use Tobacco in any form. The Preparation is not more difficult or unpleasant to take than to commence chewing gum. I conscientiously believe the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to assist those who wish to break away from the slavish appetite of Tobacco I offer this testimonial.

SAMUEL CESSIDLY.

*Beware of Counterfeits and all articles purporting to be like this, of the same name or otherwise. The great popularity of Orton's Preparation has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles. Purchasers will please order directly from the Proprietor, or his duly authorised Agents.*

The price of Orton's Preparation is $2 per box, or three boxes for $5, sent by mail to any part of the country securely sealed from observation, with passage paid on receipt of price.

*How to send money by mail.*—Enclose the amount in a letter, seal carefully, register the letter and take a receipt for it of your Postmaster. Money sent by mail as above directed at my risk. Address

SAN FRANCISCO MARKETS. From the San Francisco *Commercial Herald* of the 23d, we compile the following:

Dried apples from Oregon sell freely at our quotations.

Bacon, hams and lard. There is no Eastern here, and the market but indifferently supplied by our own and Oregon packers. Prices of each have a hardening tendency. We quote bacon 13@15c; hams 15½@16½c; lard 16@17c; according to the style of the packages.

Beef and pork--The demand for beef is confined to small jobbing lots for ship stores, and this is fully met by Pacific packers--that from Oregon preferred. Of mess sales at $27 50, with a stock of less than 250 bbls in first and second hands. We quote prime pork at $20@22 per bbls.

Bran--The demand is quite active at $18@19 per ton. Middlings.- We quote fine at $24@25 feed at $30@32 50 per ton.

Wool--There continues a good, healthy shipping demand, with sales during the week of 300,000 lbs within the range of 17½@21c for good to choice clean clips, and for inferior and burry 12½@14c.

Eggs, fresh ranch, 50@52½c; Oregon 40@42½c per doz. California lard, 5 and 10 lb cans, 16½@17c; Oregon 16@17c, according to package, with good inquiry.

The receipts of certain articles of Oregon produce from January 1st to date, have been as follows: Flour qr sks 245,660; Wheat, sks 29,067; Oats, sks 49,300; Barley, sks 240; Salmon, bbls 951, hf bbls 442, cs 9454, pkgs 383; Bacon, pkgs 4,078; Beef bbls 453; Butter, pkgs 458; Cheese, pkgs 12; Hams, pkgs 280; Lard, pkgs 1,501; Pork, bbls 835; Dried Apples, pkgs 3,208; Pig Iron, tons 500.

The arrival of wheat from the interior exhibits a considerable increase over those of a corresponding period last year--the bulk of it secured in the interior by export buyers, and therefore not thrown into competition with other lots here offered for sale in the open market. We have already dispatched to the United Kingdom four vessels loaded with new wheat, and there are now on the berth or under charter fifteen other ships, of the average carrying capacity of a thousand tons each.

LETTER FROM A COMING IMMIGRANT.—We are permitted to make the following extract from a letter addressed to a gentleman of this city, from a lady of Ohio, but at the date of writing, July 16th, at New York:

"A party of us have been expecting, for some months, to go to Oregon, but circumstances have prevented. At what time we may start, I don't yet know, but shall in two or three weeks. I have sent several communications to your paper, the OREGONIAN, but understand they have not been published. If Oregonians generally, wish to have their State filled up rapidly, they must lend a helping hand toward making emigration less expensive. I have, out of my own pocket, spent over thirty dollars, traveling and postage expenses, determined to make arrangements for a reduction of fare to emigrants, and I have only to wait a few days longer to reap the fruits of my labors by a reduction in fares the entire length of the route. There are hundreds of our best citizens in Northern Ohio, who wish to go to the far west and who will do so when permanent and reliable modes of getting there, are established. Many are men with young and growing families to whom present expenses would be too heavy, and wagons would be too tedious. I am interested in this matter and I hope the people of your State will take it up."

The suggestions in the above, in relation to cheapening the rates of fare, are important, and every agency which can be brought to bear toward effecting it, should be seized upon and persistently wielded till the object be consummated. We published some time ago a letter from the east, of similar import, in which was a suggestion as to what Oregonians themselves can and should do to hasten the reduction of expenses on this end of the route.

RETURNED HOME—RECRUITS.—Rev. A. Myers and family of this city, after an absence of about three months, reached home yesterday afternoon, overland, via the Pacific railroad and Columbia river. With him came seven families from Ohio, who purpose to become residents of this State—one of whom is the Rev. Mr Sprechen, a young divine who will soon take the pastoral charge of the Lutheran Church of this city. Mr. Myers says that while in Ohio and in other States he lectured upon Oregon several times, to large audiences, who manifested a most surprising interest in everything connected with our State. He found the people, everywhere, anxious to know all about Oregon; and was compelled to spend a considerable proportion of his time in answering queries. Whenever he spoke, in public or private, the people seemed greatly surprised and delighted to learn that we have so many, and so varied, advantages as he could truthfully assure them of; and he everywhere found great numbers who manifested the most eager desire to come out and join us. Mr. Myers says that he believes his talks about Oregon, will have the effect to bring out a good many people from Ohio. At all events, he says, a large accession to our population may be expected during even the present year, and the tide of emigration now beginning will certainly swell to immense proportions within the next two or three years. He is confident that there never could be a more opportune moment than the present for a judicious and liberal expenditure of money and effort, for the purpose of setting Oregon in a proper light before the people of the States. Such an expenditure would bring forth fruits an hundred fold, in accessions of immigration.

INDIANS ON THE RAMPAGE.—On Wednesday morning, there was a terrible drunken fight at one of the Indian ranches near this city, in which an Indian known as Sam was killed outright and a half-breed squaw known as Jenny was terribly cut, by an Indian called Spokane Jim. A white man named JacobRipley had furnished the Indians with whisky which seems to have been the promoting cause of the tragedy. Sam, the murdered Indian, had his throat cut in the most horrible manner. One gash was so wide as to expose the internal organs. The squaw received about half a dozen wounds, some of which are serious, though not deemed fatal. John Wesley who is a sort of peace officer among the Indians, captured and tied Jim, the murderer, brought him into the city and delivered him into the custody of deputy marshal O'Hara.

Ripley had an examination before Justice Bull on the same day and was bound over in the sum of $300 to answer to the charge of selling liquor to Indians. He was lodged in jail over night; but yesterday he gave bail and was released.

Spokane Jim had an examination yesterday before the same Justice and was committed on the charge of murder.

FROM VANCOUVER.—The *Commercial* has the following items from Vancouver:

The young ladies at that place are training themselves in riding, in order to prepare for the coming Fair, which comes off some time in October, on which occasion a ... prize will be awarded to the most graceful rider.

Last night (Monday) a social hop came off at Brant's Hall, given by the young "bloods" of that city. A very pleasant time was had, and the dancing continued until a late hour.

There is considerable excitement about the mines; in fact there is nothing else talked of or thought of but the mines. At the same time nothing definite can be determined from any of them. That there is gold there is beyond question, as several residents here—who are old miners—have been out there and brought in some fine specimens, which, according to their report, would pay well if there was a large enough supply of water.

JUST PRAISE.—The *Unionist* says: The Oregon and California Stage Company has the name of having the best stock and the best wagons to be met with on any road west of the Rocky mountains. The Company is certainly more careful of their property than is usually the case. All the wagons between here and Jacksonville have been repaired throughout this spring and summer, so that when a passenger gets into one of the company's wagons, he may rest assured that he will go through on time."

This is no more than just commendation. Through the efforts and liberality of the company, staging on the route between Portland and Lincoln, has been relieved of many of its former inconveniences, not to say dangers. By this, the average time has been reduced materially, the certainty of expedition has been greatly increased, and the cost of travel reduced.

AN EPITAPH.—The following is respectfully dedicated to the memory of the late lamented Committee on Immigration:

Committee rest! Your labors o'er,
Sleep the sleep that knows no breaking,
Dream of your report no more,
Days of writing, nights of waking!

"For continuation of this," as the flash papers would say, see the ballad in *Lady of the Lake*, which with slight alteration may be made to do service on this occasion.

FROM SALEM.—In the *Unionist* of yesterday, W. A. McPherson published his leave-taking of the editorial charge of that paper.

The State Teachers' Association is in session at Salem. Dr. Rounds, of the Wallamet University, was announced for a lecture before the Association, at ten A. M. yesterday.

The *Unionist* says: "We noticed some very fine looking peaches in the market yesterday. They were grown in this county."

GOING BELOW.—The bark *H. W. Almy* will go down the river to-day, to load with lumber for San Francisco. The bark *Onward* will also in a few days go below for a load of lumber for Hong Kong. It is a significant fact, in this connection, that though we have three large and first-class saw mills constantly running in this city, they do not furnish any lumber at all for export, the entire product being sold and used right here in the city.

A NEW FLOURING MILL.—The Oregon Iron Works of this city has contracted to furnish a forty-horse power engine for a new flouring mill now being built by Messrs. Hendricks & Miller, of Wheatland, Polk county. It is the intention of the proprietors to make the mill first-class in every respect, and to have it ready for operation within the next six weeks.

DIDN'T SKEDADDLE.—Mr. L. O. Landers, of Washington county, or as he is familiarly known, 'Wild Yank,' has not run away as we stated the other morning upon information. He was in this city yesterday, and he says he has no intention of going away. We regret to learn that our item has put him to some inconvenience.

SUPERINTENDENT OF INDIAN AFFAIRS.—It is now positively known that Superintendent Meacham and Agents Simpson and Lafollett will be retained in their several offices. Mr. Meacham arrived at this city yesterday, from his home in the Blue Mountains, and will go on to Salem to-morrow.

WHY?—Speaking of the fact that 140 tons of butter was shipped recently from the East to California, the Polk County *Times* inquires why Oregon cannot supply that State? A more direct and pointed question would be, Why can't Oregon supply herself?

SLOW.—Dispatches dated July 22d came yesterday from Victoria. They are very much out of date and are not worth printing, but they will serve one good purpose,—they will enable a contemporary to display "news from Victoria, Washington Territory."

THE NEXT STEAMER.—The next steamer from San Francisco, after the *Pacific*, will be the *Oriflamme*, which is to sail August 5th.

SHAKSPEAREAN READINGS.—Mr P. Thayer, late of the Bates company, leaves this morning for Astoria and the lower Columbia towns for the purpose of giving readings from Shakspeare's great plays and selections from modern poets. He will call to night at Westport, and on Saturday evening will read at Astoria. Upon his return next week he will call at Rainier, St. Helens and possibly at other points. Mr. Thayer is an excellent reader, and we have no hesitation in recommending the people of the towns he may visit to go and hear him.

NEEDS RECONSTRUCTION.—Our sprightly little evening cotemporary says, "the ear of Night is actually made hideous" by the clanking of velocipedes. Then we recommend the sable dame to go to some of the shops where repairing is done and get her deformed member reconstructed.

PORTLAND YACHT CLUB.—A meeting of the Club will be held at 8 o'clock, in the Club room, corner of Yamhill and Front streets, and all members are requested to be present promptly, as business of importance will be transacted. GEO. F. BOWMAN, Secretary P. Y. C.

ON A TOUR OF INSPECTION.—Mr. John Gates one of the Board of Inspectors of steam boilers for this district, is on an official tour through the central and southern portions of the State. He will visit Coos Bay before returning.

ANOTHER SHIP FROM CHINA.—Advices from Hong Kong to the 19th of June, by way of San Francisco, are to the effect that the bark *Andreas*, was then loading with a ten thousand dollar freight for Portland, Oregon.

IMMIGRANTS.—There is a camp of immigrants just below the city, who came from Pennsylvania by railroad to Ogden and thence by wagons by way of Boise city and Umatilla. They are looking out for a location.

A BAD SPELL.- The Yamhill *Courier* spells Siskiyou, the name of the county of California in which is situated Yreka, thus "Syscue." Another as bad spell as that would about let Siskiyou out.

U. S. CIRCUIT COURT.—DEADY, J.—In this court yesterday, W. F. Trimble was admitted to the bar.

The case of Holmes vs. Holmes was submitted on exceptions to answer.

FOR THE LEWIS RIVER MINES.—Two or three prospectors left this city yesterday morning for the Lewis river mines. They came from up the valley.

A DAY or two since we spoke of the number of Eastern made carriages which are constantly coming to this town for our pleasure loving citizens. But having seen some of W. E. COOPER'S work we wonder that people do not patronize home manufactures. He has just turned out for Put. Smith the neatest pony carriage or English phaeton that could be made anywhere. The body is basket shape, on low wheels, and is got up in as good style and at as low a price as any of the imported carriages. In fact Cooper need not feel ashamed to say it is his work.

EVERY DAY, at No. 107 Front street, one door above McCormick's, you can see KANE'S CONDENSED SOAP wash *without rubbing*.

G. F. TRAIN *preaches* but does not always *practice*—for be patronized the Oregon Dispensary and used our medicines to cure his hands that caught those *large* Salmon. Since his lectures on DOCTORS and DRUG STORES, we have had an unprecedented run for our numerous remedies, toilet articles, etc., etc. It has been said that Mr. Train was induced by us to deliver that lecture, but we assure our numerous patrons that we do not use such means to obtain patronage. We do the largest trade because our Druggists are the most competent and our medicines and goods are fresh, pure and cheap.

NOTICE.

WE TAKE PLEASURE IN CALLING the attention of dealers to a valuable Patented Improvement in Electro Plating Spoons and Forks by which those parts most exposed to wear receive an

EXTRA COAT OF SILVER!

THREE TIMES THE USUAL THICKNESS

viz: on the back of the handle, bowl of the bowl and points of bowls of spoons, back of the handle and breast and points of tines of forks, as illustrated in cut.

This mode of Electro Plating greatly supercedes the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on these exposed points, while the plate is yet good on other parts of the article. This new process will add THREE TIMES TO THE DURABILITY of goods so plated.

Knives, forks and spoons stamped "1847 ROGERS BROTHERS A1 XII," are Electro Plated by the new Patented Process.

We have now been before the public since 1852, manufacturing ELECTRO-PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

SUMMONS.—In the Circuit Court of the State of Oregon, for the county of Multnomah.—Joseph Brant, plaintiff vs. J. B. Robinson, et al, defendants.

To J. B. Robinson, defendant:—In the name of the State of Oregon you are hereby required to appear and answer the complaint filed in said court, in the above entitled action, on or before the first day of the term of said court next following the expiration of the time prescribed in the order of publication of this summons, which term of said court will be holden on the second Monday, being the eighth day of November, A. D. 1869, and if you fail so to appear and answer said complaint, the plaintiff will take judgment against you for the sum of one hundred and twenty six dollars and sixty six cents ($126 66) in U. S. gold coin, and interest thereon in like gold coin from the twenty-fifth day of April, A. D. 1869, and for the further sum of three dollars ($3 00) cost of protest of note named in plaintiff's complaint, and for the costs and disbursements of this action.

And you are also notified that publication of this summons, for six consecutive weeks, is ordered by Hon. W. W. Upton, Judge of said court, on the twelfth day of July, 1869. SAM A. MORELAND,

SHERIFF'S SALE.—By virtue of an execution issued out of the Circuit Court of the State of Oregon, for the county of Washington, and to me directed on the 1st day of July, 1869, in favor of Benjamin Cornelius, Jr., and against Flemmon Dobbins, commanding me to make the sum of nine hundred dollars in U. S. gold coin, with interest thereon from the 28th day of September, 1866, at the rate of 12 per cent. per annum, and costs and disbursements, and for want of personal property to satisfy the same, I have levied upon and will proceed to sell to the highest bidder for U. S. gold coin at the Court House door in Hillsboro, Washington county, Oregon, on the 9th day of August, 1869, between the hours of 9 o'clock A. M. and 4 o'clock P. M. all the right, title and interest of said Flemmon Dobbins in and to the following described real estate, to wit: lying and being in the county of Washington, State of Oregon, and described upon the maps and surveys of the United States as the donation claim of said Flemmon Dobbins, being a part of sections 26 and 27 in T 2 N, R 3 W, containing 320 acres more or less.

THE ATTENTION OF PERSONS CONTEMPLATing Insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately secured to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

### A Letter on the San Juan Controversy.

We find in a Victoria paper a letter written last winter to Earl Granville by the Canadian delegates to Great Britain, which we publish as part of the literature of the San Juan controversy. The letter is full of arrogant and erroneous statements, and to find the English discussing the question in such a spirit and with such arguments is well calculated to make Americans more firm in their purpose to maintain their rights in the premises at all hazards.

It is not true, as the Canadian delegates affirm, that "the channel which is nearest the continent (meaning Rosario Strait) was the only one generally known to navigators" when the treaty of 1846 was made. On the contrary, the channel then generally known was the Canal de Haro, which is unquestionably the widest and deepest channel between Vancouver's Island and the continent. This was the only channel which was mentioned in all the negotiations connected with the treaty, and when the treaty was ratified by the Senate of the United States, Mr. Benton and others expressly stated that the Canal de Haro was the channel intended. The whole subject, however, has been gone over so often that this is quite common-place. The British rest their whole claim on a little fiction of this sort, viz: The treaty declares that the boundary line shall pass through the middle of the channel "which separates the continent from Vancouver's Island;" and they hold that Rosario Strait must be that channel because it separates the continent from the Island, while the Canal de Haro being *nearer* the Island, separates the Island from the continent, and cannot therefore answer the requirements of the treaty. This is simply a play on words and is entitled to no consideration.

The duty of our Government requires it to assert its rights at once and terminate the joint occupancy of San Juan Island. Gen. Halleck was unquestionably right in asserting in his letter to the War Department in 1867 that the agreement made by Gen. Scott and President Buchanan for a joint military occupation of the disputed territory was without sanction of law and was therefore of no binding force. This anomalous arrangement ought to be brought to an end speedily.

### California Republican Platform.

The Republicans of California in their recent State Judicial Convention presented an admirable platform. We know not whether we have ever seen more sensible, liberal and straightforward resolutions from any political assembly. They embody essentially the prevailing ideas of these progressive times, and are entirely free from the demagogical cant and partisan clap-traps which so often find a place in political platforms. Such resolutions could emanate only from a party which has perfect confidence in the logic and justice of its cause, and is not afraid to trust that cause to the verdict of an intelligent people. There is no shuffling, equivocation, or evasion in the resolutions. Of course it was proper that the Convention should express its approbation of the reformatory administration of President Grant. Republicans everywhere take pride in the splendid results of his administration, and have a right to take credit for these results as the exclusive property of their party. As the negro question has passed out of politics it is not necessary for practical and sensible men to spend any more time in discussing it; therefore the Convention did not waste words about the negro, though he still figures so prominently in Democratic platforms. But upon the Chinese question the Convention presented a couple of admirable resolutions which state the case exactly as it is and express the whole views of the Republican party in relation to it. If we prohibit the immigration of Chinese we surrender to Europe the trade of the Chinese Empire; and the closing of our ports against them would therefore be injurious to our country. It was hardly necessary for the Convention to declare that the Republican party is opposed to Chinese suffrage. There is no Republican in the Pacific States who has proposed such a thing. The Democracy, in fighting Chinese suffrage, should be let alone and allowed to fight the man of straw which they have set up for that purpose.

### In General.

The *Herald* informs us that the "Southern people have accepted the situation." Now if the Northern Democracy were as wise as they and would also accept the situation, we should have undisturbed peace and tranquility.

Beriah laments exceedingly to find, as he alleges, that the "administration uses power only to serve the interests of its partisans." Think of a Democrat making such an objection! When did a Democratic administration use power for any other purpose?

It is thought that Gen. Rosecrans and martyr Vallandigham will make quite a strong team on the stump in Ohio. Rosecrans can bring in all the "War Democrats," and Vallandigham can marshal all those whom Rosecrans called "traitors" in 1863. This is the New York *World's* programme.

Under the system of "economy" inaugurated by the late Democratic city government, the *Herald* is enabled this week to send in a little bill for advertising to the amount of $224 75. This is more than the city advertising used to cost for the space of six months, prior to the era of Democratic "retrenchment." The present Council should reduce the amount of advertising to something like the actual wants of the city, and thus abrogate a system that was set up by the Democrats for the sole purpose of party plunder.

The Salem *Press* is in a great rage to find that Senator Williams has succeeded in having Messrs. Meacham, Simpson and Lafollett retained in the Indian service. The article has a great deal to say about Mr. Nesmith in connection with this matter, and is to be taken as a joint expression of the rage and disappointment of that gentleman and Beriah at finding some of their little plans upset. If we are to judge of the matter from the noise they make they are hurt dreadfully. All of which is quite satisfactory to every Republican who witnesses their agony.

The following just observations are from the Chicago *Tribune*: "With every arrival of cheap Chinese labor, Americans and Europeans will be promoted from drudgery to direction, from physical toil to intellectual foremanship and command. With every accession of capital, the diversity of the modes in which it can be applied, and the rapidity with which it can be turned over, will afford the capitalists a larger income from a less rate of profit. Both the growth of cheap capital and the immigration of cheap labor will lessen the cost of production of all the necessaries of life, and hence will lessen the nominal expenses of living. The Labor Unions will be starting on a false scent, therefore, if they consent to drift into hostility to the introduction of cheap Chinese or Asiatic labor."

The *Overland Monthly* for August has an article entitled, "To Simcoe," which will be read with interest by many people in Oregon, especially those who are interested in the excellent results of Rev. Mr. Wilbur's labors among the Indians at Simcoe Reservation. In making a change in the Indian policy, President Grant has in no instance made a greater mistake than in removing Mr. Wilbur. A man of the most benevolent and unselfish motives, he had labored for eight years with untiring zeal for the improvement of the Indians at Simcoe, and was really accomplishing a great work in their behalf. They had perfect confidence in him, and his influence over them was large and beneficent. That such a man, under such circumstances, should have been supplanted by a young and untried military officer, was a great mistake, and if Mr. Wilbur will consent to return to his post we hope our Senators and others having influence at Washington will endeavor to have him reinstated in a place which he has filled with so great advantage to the Indians, the Government and this portion of the country.

### GENERAL NEWS ITEMS.

Professor Maury, of the Virginia Military Institute, has accepted the position of President of the University of Alabama.

The New York *World* of July 12th had an article favorable to Chinese immigration. All the enlightened Democratic papers at the East have taken the same stand.

Risdon, the "sole survivor," who palmed off the gigantic and cruel hoax about the loss of the Powell expedition in the great canyon of the Colorado, has been arrested at Springfield (Ill.) for theft, and is now in jail there.

The San Francisco *Dispatch* laments in a long article that the "Chinese fever" has smitten its Democratic brethren in the South. It is indeed terrible to reflect that the hobby of the Democracy of the Pacific States has been shivered to smithereens.

The celebrated papers of Governor Arthur St. Clair, numbering two thousand original manuscripts, and embracing all his official correspondence when he was Governor of the Northwestern Territory, manuscript letters from General Washington and all other prominent men of the Revolutionary War, never yet made public, are offered for sale in Cincinnati during the first week in August. The effort which has been making for some time to get the documents for the State of Ohio has not yet met with success.

In the matter of the pardon of Moses Dupuy, the New York rogue, whom Johnson wanted to let off, but who was caught up by General Grant, and had his pardon withdrawn, Judge Blatchford's decision shows that a pardon has no validity until it has been actually delivered to the prisoner or to some one for him. The Judge cites the case of the United States vs. Wilson (7 Peters, 150) in which Chief Justice Marshall, who had delivered the opinion in Marbury vs. Madison, holding that a commission is valid without delivery, held in so many words "that a pardon is a deed, to the validity of which a delivery is essential." He also cites a decision by the Supreme Court of Pennsylvania to the same effect.

### OREGON.

The "boys" at Dallas are getting up a brass band.

The people of Polk county are much annoyed by drunken Indians who are roaming over the county.

W. A. McPherson publishes his valedictory in Thursday's *Unionist*. Mr. Clarke will take control of the paper on Monday next.

The Polk county paper severely censures the authorities for negligence and tardiness in prosecuting the suspected parties in the Jenny Boyce case. Some of them have already left the State.

The *Polk County Times* has a correspondent who declares that the Democracy of that county will not tamely summit to be "led captive by the devil (Beriah) at his will." The *Times* promises to go after Beriah editorially next week.

From the *Unionist*: The following changes have been made in the Oregon Indian Superintendency: Lt. W. H. Boyl, U. S. A., relieves Agent Wm. H. Barnhart at Umatilla; Capt. W. Mitchel, U. S. A., relieves Agent Capt. John Smith, at Warm Springs; Bvt. Lt. Col. E. Rice, U. S. A., relieves Sub Agent L. Applegate at Klamath, and Lt. —— Batty, U. S. A., relieves Sub-Agent G. W. Collins at Alsea; Hon. A. B. Meacham will be retained as Superintendent of Indian Affairs for Oregon; Benj. Simpson is continued as Indian Agent at the Siletz Agency, and Charles Lafollett at the Grand Ronde Agency.

### THE WEST.

Hill Beachey will shortly put on a line of stages from Elko to Silver City, Owyhee, bringing the two points within thirty hours of each other.

A recent letter from Salt Lake states that there are only four licensed retail liquor shops in the city. There must be a vast number of unlicensed ones.

The *New Northwest* is the name of an excellent paper which has been started at Deer Lodge City, Montana, by J. H. Mills, late editor of the Montana *Post*.

A cloud of grasshoppers, "warping on the eastern wind," visited some fields of barley in the Owyhee country a short time ago, and remained about four hours, taking very heavy toll.

A lady in Springville, Utah Territory, had 2,000 silk worm eggs last spring. Not one of them failed to hatch, and not a worm died. The first two weeks the worms were fed on Osage Orange, and after that on Mulberry leaves. Thus it appears that silk worms can flourish on other leaves than Mulberry.

### Crops and Markets.

The fact is developing that in spite of the late bad weather the crops throughout the Mississippi valley will be very large. The Cincinnati *Gazette* of July 16th says:

It is a remarkable fact, from all this section of country there are but few words of complaint in regard to crops, while almost universally the most favorable reports reach us. We suppose it is safe to say that the largest and best crop of wheat ever grown in this section is now being secured, and that on the 1st of September there will be a greater number of bushels on hand in Ohio, Kentucky and Indiana than at any former period.

Latest advices from Europe indicate fair crops in most places, so that there is little prospect of any considerable advance in wheat this year.

Gov. Walker, of Virginia, recently visited the President at Washington and said that he would be Governor of Virginia and that he would not permit himself to be influenced by the old politicians of the State. It was his purpose to carry out faithfully and fully the platform upon which he had been elected and to sustain the President's reconstruction policy. He spoke freely of the opposition he had to encounter in the recent canvass, and also of those who supported him, and he wanted to set at rest all reports that he was to be influenced by the ex-rebel element. Alluding to the nomination of General Rosecrans in Ohio by the Democratic party, he said that he was not conscious of having swerved one iota from the views entertained during the war, when he was known in Chicago as a War Democrat. He then stood on the same platform with General Rosecrans, who, he regretted to know, had now become the Gubernatorial candidate of the Vallandigham party in Ohio.

The members of a Constitutional Convention are to be chosen in Illinois at the next election. The Constitution made by the last Convention was voted down by the people, although it was conceded that certain changes in the old Constitution were very desirable. The desire for these changes has increased since then.

(DISPATCHES TO THE OREGONIAN)

### DATES TO JULY 28.

**The New Orleans Frauds**

NEW ORLEANS, July 28.—Investigations into the custom house frauds are steadily progressing. Solicitor Bonefield has retained the services of the legal firm of Hudson & Fearn, and an assistant District Attorney.

**Boston Dispatch.**

BOSTON, July 28.—Hon. Augustus Allen, a prominent lawyer of this city, was conveyed to the Insane Asylum to-day. He manifested symptoms of insanity yesterday at the Duxbury cable celebration, and very severely stabbed an officer who was called to take charge of him.

A Boston firm yesterday paid $8,000 on a forged check.

**The Anti-Rent Riot in New York.**

ALBANY, N. Y., July 28.—Sergeants Dugan and Kirk, of the Troy division of the capital police, arrested the anti renters who made the assault upon Deputy Sheriff Griggs' posse Monday last in Rensselaer county. They were allowed to go on parole to appear on Friday. Deputy Sheriff Griggs was reported in a dying condition last night. The other parties wounded are in a fair way to recover.

**Trotting Match.**

NEW YORK, July 28.—The trot for $2,000 best 3 in 5, to harness, between Lady Thorne and Goldsmith Maid, was won by the former in the fastest time made this season on the Union course. Time 2.22¾, 2.20½ and 2.21¼.

**Mr. Peabody in Virginia**

WHITE SULPHUR SPRINGS, Va., July 28.—Mr. Peabody was to-day presented with the resolutions passed by the meeting of yesterday. He responded with a feeling allusion to the condition of the Southern people—spoke hopefully of coming prosperity of the whole country, incidentally, and alluded to the fact that the fund, though in its infancy had accomplished much good. Eight hundred persons, half of them ladies, witnessed the presentation. A grand ball in honor of Mr. Peabody takes place here August 11th.

**Mississippi Politics.**

WASHINGTON, July 29.—The radical Mississippi delegation, it is reported, had an interview recently with the President on the Mississippi question, and told him that Judge Dent, his brother-in-law, was the tool of rebels, and had received sums of money in times past to influence votes in Congress. The President listened, and agreed, if they could prove the assertion, to do his part towards giving the Administration support to the other candidate. The delegation are now supplied with proofs which they will lay before him.

**Cuban News.**

WASHINGTON, July 28.—Cuban letters received here give accounts of several engagements between the insurgents and Government troops, in which the former were successful. The Cubans succeeded in cutting off all communication between Neuvitas and Puerto Principe and hold all the intervening country. The Spanish troops are now confined in these cities and are suffering severely from disease and want of supplies. Quesada has a large number of prisoners, including several prominent Government officers, whom he is holding as hostages for the proper treatment of his men in the hands of the Spaniards. The Cubans have possession of several points on the coast, affording direct communication. A battery of artillery with 3,600 men from the United States were successfully landed near Neuvitas, and are now part of Quesada's forces. Sickness is reported as abating, and Quesada and Jordan expect soon to take the field with a force fully equal to the enemy.

WASHINGTON, July 28.—An interesting letter relative to the Cuban situation is received from a Spanish gentleman who went to Cuba several months ago to claim an inheritance that had been left to him. He says at Neuvitas he learned that nine creoles were going to be presently shot. They marched near him with firm step, with heads erect and with looks of brave determination. Arrived at the fatal spot they seated themselves on a bench already prepared and at the sound of the officer's voice who gave the order to fire they cried out "Hurrah for Cuba! Hurrah for Cespedes!" After they had fallen the volunteers stuck their bayonets into their bodies. At Gibora he saw a group of armed men marching toward a house of modest appearance. Anxious to see what was to be done he followed them. Arrived before the door they halted while three of the number entered. The latter presently reappeared with a young man crying "here is an insurrecto! here is Marabi!" "What do you wish?" said the young man. "If it is I whom you seek, I am at your service, but don't frighten my father and mother." Without ceremony the volunteers seized the speaker, dragging him along the road, and struck him repeatedly with the butts of their muskets. When they got to the cemetery they ran him through with bayonets. From Santiago de Cuba comes a thousand atrocities that were committed by the infamous Francisco party, to whom the Government of that part of the Island has entrusted the direction of matters. Quanatonia Bascoa, a man wanting in the sentiments of humanity and every moral principal, has been robbing and assassinating every Cuban whom he believed to be liberal. Whole families had been murdered by this bandit. Young and old were butchered, and his companions not being satisfied with the villainy committed, they went to Bascoa where, aided by a few other assassins, they went from house to house. Hundreds of persons in this way were murdered, with full consent of the authorities.

**Miscellaneous.**

CHICAGO, July 28.—A New York special says several revenue officials deny the statement that distilleries have been stopped in New York in favor of Western manufacturers. They say a large stock is on hand and the high prices of grain have made manufacturing unprofitable. On the other hand manufacturers say officials have been tampered with and given vexatious orders and restrictions which have spoiled the business and compelled suspension.

The celebration of the French cable occurred last evening in Library Hall in this city, which was crowded by people of various nationalities. Speeches were made in English, French, German, and Italian. Much enthusiasm was manifested.

Van Buren, formerly Post Adjutant at Camp Douglass and recently real estate dealer in this city, slipped and fell in the Brigg's House last evening, his head striking a stone door step. His skull was fractured and he died soon after.

Arguments on motion to dissolve the injunction against the trial of Rev. Mr. Cheney, closed yesterday. The Court will render a decision to-morrow.

A party of 180 recruits for the 13th infantry, now serving on the plains, arrived yesterday. They were locked in the cars at the Northwestern depot, awaiting the departure of the train from Omaha, when they somehow procured whisky and became exceedingly disorderly, smashing the car seats and windows. The officers lost control of them and the police were sent for, when the soldiers commenced an indiscriminate volley of missiles from the car windows. Several men were bruised, but none severely. Fifteen recruits escaped during the confusion. They departed for Omaha at half-past nine o'clock last evening.

NEW YORK, July 29.—The *Herald* says the House Committee on Naval Affairs, the Ways and Means and other Committees, propose to go on a junketting tour. They will embark on the Revenue Cutter *Michigan* and make a tour of the lakes and examine what additional legislation, if any, is necessary for the better enforcement of the revenue laws on the frontier, and for the suppression of smuggling.

### BY ATLANTIC CABLE.

BERLIN, July 28.—Yesterday the Centennial anniversary of the birth of Humboldt was observed as a holiday. A banquet was given and a large procession passed through the streets.

The *Provisional Correspondence*, newspaper, expresses astonishment at Baron Von Beust's assertions about Prussia in his speech to the Hungarian Committee. It then denies that any advances have been made by Austria, and says if she desires to establish true and solid friendship, Prussia is quite ready to meet her.

BERNE, July 28.—George Harrington, late American Minister, to-day took leave of the President of the Swiss Confederation and introduced his successor, Mr. Rublee, who presented his credentials and was received as Minister from the United States.

LONDON, July 28.—In the House of Commons, in reply to an inquiry concerning recent agrarian outrages in Ireland, Mr. Fortesque, Chief Secretary for Ireland, said the Government gave careful attention to the suppression of such crimes, and would not shrink from legislation if convinced that it is necessary, provided it was not violent, to protect life and property. The vigilance of the police and the action of Government prevented much crime. He trusted the absence of any unjustifiable exercise of right of property, such as caused the late disturbance in Tipperary, and the continued exertions of the Government, would tend to keep down violence.

The bill to abolish capital punishment came up on motion for second reading and was rejected—58 to 118.

PARIS, July 28.—The *La Presse* asserts that arrangements are now nearly complete for giving unlimited leave of absence to soldiers whose furlough will soon expire.

### OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, July 29.—C. H. Foster was arrested to-day for threats against his wife Mary Foster. They had fought over the possession of their child, on Third street last night, during which Foster drew a pistol upon her.

The residence of Mrs. Kirby, on Stockton St., near Sutter, was destroyed by fire at two P. M. to-day. Insured for $500. She was barely able to escape with her children.

At a meeting of the Chinese Protection Society yesterday, several new policemen were appointed. Also a committee to draft rules for the guidance of the policemen.

A meeting of the retail druggists of this city was held for the purpose of organizing a Pharmaceutical Society. A committee was appointed to draft a constitution.

### NEVADA.

VIRGINIA, July 29.—Several gentlemen of the Ways and Means Committee made the descent to the 900 foot level of the Yellow Jacket mine this morning before breakfast. They were entertained while here by Wm. Sharon, Esq., who also forwarded them in barouches to Reno. They expressed their delight with the wonders and riches of the place.

### The Republican Platform in California

*Resolved*, That the Republican party of California gives its earnest support to the administration of President Grant, and do hereby endorse the acts and policy of his Administration. We recognize the earnest effort of the Government to secure an economical administration of its affairs, to reduce expenses, to honestly pay the national debt, to prevent speculation and fraud upon the treasury, to enforce the collection of revenue, and to cause the speedy restoration of public confidence in our financial strength and integrity.

*Resolved*, That the negro question has ceased to be an element of American polity, and that the ratification of the Fifteenth of Amendment to the Constitution ought to be followed by an act of universal amnesty and enfranchisement of the Southern people.

*Resolved*, That we regard with pride and satisfaction the evidences of an increasing immigration to this State from the Atlantic States and from Europe, with whom we are anxious to share the benefits of a fruitful soil, a genial climate and an advancing civilization, but while giving preference to the immigration of people of our own race, we hold that inoffensive immigrants from China to this State are entitled to protection for their lives, liberty and property, and due process of law to enforce the same; but we are opposed to Chinese suffrage in any form, and to any change in the naturalization laws of the United States.

*Resolved*, That we recognize the power of the General Government to restrict or prevent Chinese immigration wherever the welfare of the nation demands such a measure, by terminating our commercial relations with China, but it should be considered that the adoption of a non intercourse policy in respect to China surrenders to Europe the commerce of the empire of Asia. We believe that the general prosperity will be greatly enhanced by fostering commercial intercourse with Asia, and that the closing of our ports at this time against the Chinese would be most injurious to the material interests of this coast, a reproach upon the intelligence of the American people and contrary to the spirit of the age.

*Resolved*, That the Republican party, having ever had in its especial keeping the rights of labor and the laborer, and removed therefrom the blighting curse of slavery and inaugurated a new era, in which the wages of labor have greatly advanced, while the hours therefor have been correspondingly diminished, claim to have originated in this State and steadily supported what is known as the Eight-Hour Law, the sound policy of which has been proclaimed by a Republican Congress and by a proclamation of a Republican President made applicable to the public works of the United States.

*Resolved*, That we endorse the action of the Senate of the United States in rejecting the so called *Alabama* treaty and consider it the duty of the General Government to demand full reparation for the injuries inflicted by the British Government and her people upon our commerce during the late rebellion.

*Resolved*, That we are in favor of imposing upon all kinds and classes of taxable property in the State an equal share of the burdens of taxation, and to that end favor the organization of a State Board of Equalization of Revenue, that the inequalities now existing under the present system of assessment and collection of the State revenues may be avoided.

*Resolved*, That we are opposed to grants of State aid to railroads, and are in favor of limiting taxation to the amount of revenue absolutely requisite to pay the actual expenses of the State Government and to maintain the financial credit of the State.

*Resolved*, That we hail with joy the return of peace and the promising signs of an increasing development of the country and the permanent prosperity of the whole people, and we earnestly invite the co operation at the ballot box of all who agree to the foregoing declarations, regardless of the old party ties or previous differences of opinion upon the now settled questions of slavery, rebellion, reconstruction and negro suffrage.

The resolutions were adopted with great unanimity

### POLITICAL.

The Cincinnati *Enquirer*, the leading Democratic paper of Ohio, says: "Repudiation is getting to be a very respectable sort of word, and every day makes it more and more a synonym for relief.

*Apropos* to Tammany's declaration in favor of John T. Hoffman, the Cincinnati *Enquirer* bluntly says that the last selection the Democrats made for President from Tammany Hall was not calculated to induce a repetition of the experiment.

The Richmond *Whig* reminds the people of Virginia that they yet have something to do—and that is, so to speak and act as to dispel distrust and disarm suspicion at the North, and to satisfy the Government and the people of the whole country that they have accepted and mean to carry out in good faith all to which their canvass pledged them.

The Baltimore *Commercial*, which is run in ex-Confederate interests, finds no especial comfort in the election returns from the Old Dominion. It says: "While we are disposed to rejoice over the defeat of Wells, beyond that we do not see much in this election to delight any Virginian. For though there may be selections and choice between carpet baggers, yet the fact that a great and noble people have been hunted down until they are compelled to make such a choice, is most humiliating."

We have watched with an interest almost breathless for what the fierce Democracy at the North would say at the election of negroes to office by their brethren in the South. As we supposed the hatred of the "nigger" here was genuine, we of course expected the outburst at the outrage of electing him to the Legislature in Virginia would be instant and terrible. Therefore we watched. But it has been in vain. Not a whisper of protest is uttered anywhere, and to day, for aught appears, the "nigger" is as good a fellow with the fierce Democracy as the white man.

The cloven foot will stick out. The New York *World*, commenting on W. S. Rosecrans, (his military title falls with his honor) says to soreheaded hardshell Democrats, "Those who feel most hesitation about the ticket find a compensation in the platform, and *vice versa*. The platform and ticket, taken together, form a combination which will bring more voters to the polls, on the Democratic side, than any other which was possible under the circumstances. It is a very dexterous instance of adapting the plan of battle to the nature of the ground on which it is to be fought." This is very nicely arranged. You can pay your money and take your choice. If the Democrats don't like the "Federal butcher" they can vote for the platform, and *vice versa*.

## CORVALLIS FIRE.

CORVALLIS, OREGON, July 23, 1869.

To HARBERT BIRD, Esq., *Adjuster Phœnix Ins. Co., Hartford.* DEAR SIR: Allow me to acknowledge the receipt in U. S. GOLD COIN, of the amount of my loss by the fire of the 21st inst.

The payment of a claim on the second day after the fire, is proof that the confidence placed by the people of Oregon in the business-like promptness and good faith of the Phœnix Insurance Company of Hartford, and its representatives, is well merited; and I take this opportunity of assuring you of my good will towards the Company, and wishing them the same success in the future that has, so far, attended their business in this State.

Yours, truly, WILLIAM FLEIDNER.

**SEVENTH INDUSTRIAL EXHIBITION**

OF THE

**MECHANICS' INSTITUTE**

OF THE

**City of San Francisco**

WILL BE

OPENED TO THE PUBLIC 11 A. M. SEPT. 14, 1869

THE BOARD OF MANAGERS ANNOUNCE THAT the Seventh Industrial Exhibition will open as above, in the spacious Exhibition Building erected on Union Square, in the City of San Francisco, and no pains will be spared to make it complete in all its details.

The Building is weather-proof, well ventilated, and lighted (at night, by 1,500 gas jets, is provided with tables for exhibitors' use, and has a line of shafting 200 feet long provided with necessary pulleys and ample steam power to exhibit working machinery, and covers an area of 90,000 feet.

The lines of telegraph wires will be connected in the building, where, also, will be the Postoffice and Express Companies' boxes. A fine band will discourse music every evening and afternoon, and the visitor will find ample provision for his comfort in every particular.

The various Hotels are making extensive preparations to accommodate visitors at moderate rates during the Exhibition season, and the Board of Managers will, through an agent, extend all information to strangers seeking accommodations during their stay in the city at that period.

There is no charge to exhibitors (except ticket of admission), and exhibitors are notified that application for space must be received before August 28, or space can not be definitely assigned. Articles intended for exhibition must be in the building by Saturday, Sept. 18, and no article can enter for competition unless in position by that time.

Rules and Regulations, Circulars and Blanks will be forwarded on application at the rooms of the Mechanics' Institute, 29 Post street, San Francisco, or by addressing J. H. GILLMORE, Corresponding Secretary, same address.

Articles from the country must be marked distinctly "For the Seventh Industrial Exhibition, San Francisco, California. Care J. H. Gillmore, Corresponding Secretary." jy19d1m2p
